

5BYAGE5: PREPARING CHILDREN FOR SUCCESS

Meet Our Webinar Guests

Tina Mosley, *Owner & Director of Our Daycare and Learning Center*

Mosley.tinaa@gmail.com

Tina Mosely, Owner/Director of Our Daycare & Learning Center for 21 years. Married to Demetrious Mosley for 27 years and mother to Demetrious 24 and Darius 22. I have operated my business in the Normandy 24:1 footprint for 18 years and lived in the footprint for 6 years. I became familiar with Beyond Housing and became an Ambassador to help bring their mission into the 24:1 community. I immediately wanted to be a part of their plight to help share their plans for our community and to encourage us to attend listening sessions.

Shortly afterwards I joined another phase of Beyond Housing's plan for our 24:1 Community which was focused on the Child care programs in the footprint, PAQ Programs Achieving Quality. I've been a part of PAQ for 7 years now and have improved the quality of my program, my children, my staff, as well as myself! I have grown from Level I to currently Level IV. I have obtained my Associates Degree in Early Childhood Education and currently working towards my Bachelors in Early Childhood Education. While staying active as a PAQ member I have worked along with another program that works with our children, 5 by age 5 Initiative. This is another great program in the 24:1 footprint that addresses 5 areas every child needs addressed by age 5.

Mike Sorth, President & CEO, *Collective Impact Network*

msorth@stlci.net

Michael Sorth is the President and CEO of the Collective Impact Network. The Network is a non-profit Foundation focusing on organizing working groups of nonprofits bringing solutions and services to defined geographic areas. Currently, the Network exclusively serves the 24:1 footprint, which is the 24 municipalities that make up the Normandy School District. Mike has served the St. Louis region as an Investment Banker with Stifel, a non-profit Executive Director and as the COO of a regional government. Mike's multi-disciplined background provides unique experience to direct the Network's work. His love of St. Louis, its people and institutions fuels his work to strengthen our community. Mike lives in the City of St. Louis with his wife Kristen, son Jack and their two Standard Poodles, George and Fitz.
